

CSCMP 2018 European Conference

Connecting supply chains to the future

The European Conference for CSCMP is brought back to life in the city where the future of supply chains is made. In an exciting event we present you a program on the cutting edge of innovation and help you plan your successes for the coming years.

The conference is combined with the European Research Seminar, where leading academics present and discuss their groundbreaking research. Please go to <https://ers2018.sciencesconf.org/> to review the program

We have tracks that cover the following areas:

- **Innovations and Trends**
- **Disruptive Technology**
- **Supply Chain Finance and Blockchain**
- **Robotics and Artificial Intelligence**
- **Human Capital**

In close cooperation with:

Make sure to reserve the dates and join us for this event full of development of your knowledge, educational speakers and global networking events.
